SpaceShipOne: An Illustrated History

by Dan Linehan

- Name: _____
- Address: _____

- Check one:
 - autograph only
 - autograph and date
 - inscription exactly how requested (please provide exact and readable inscription on back)
 - inscription made up by author based on information provided (please provide information on back)
- Within the contiguous US: **\$39.00** check payable to “Dan Linehan” (includes S&H).
- Outside the contiguous US: please inquire about pricing using the contact form on the website listed below.
- Mail form and check to the following address:

Dan Linehan
 PO Box 814
 Monterey, CA 93942

***"SpaceShipOne: An Illustrated History* chronicles a key milestone in the race to take private citizens and private enterprise to space. It's the story of how a group of determined and passionate aerospace designers—and their financiers—pulled off one of the most remarkable accomplishments in our conquest of gravity."**

—from the foreword by
 Sir Arthur C. Clarke

"While some five hundred people have been to space, only three have actually flown themselves there. *SpaceShipOne: An Illustrated History* puts you behind the wheel of the 'Mach 3 Ferrari' known as *SpaceShipOne* and describes the challenges of hand-flying the rocket to the edge of space and back again—a journey that pushed our small team to its limits to solve the demands of performance and precision for crossing the tightrope of spaceflight."

—Brian Binnie, *SpaceShipOne* test pilot and astronaut
